

simple & effective design retrieval for engineering applications
from Applied Search Technology Ltd.

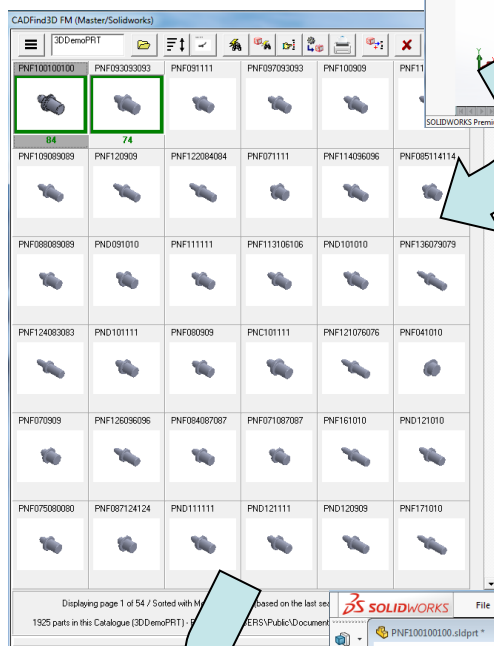

*CADFind3D allows designers to search for
SOLIDWORKS parts by shape and size*

CADFind3D:

- Allows designers to create personal & company part libraries
- Allows designers to re-use similar parts or utilize template parts
- Is quick and simple to use
- Is tightly integrated with SOLIDWORKS
- Makes it easier to re-use rather than design from scratch
- Offers the designer substantial savings in time and cost
- Advanced analysis tools support duplicate detection, part grouping and standardisation
- Comes in FREE, Personal and Enterprise editions

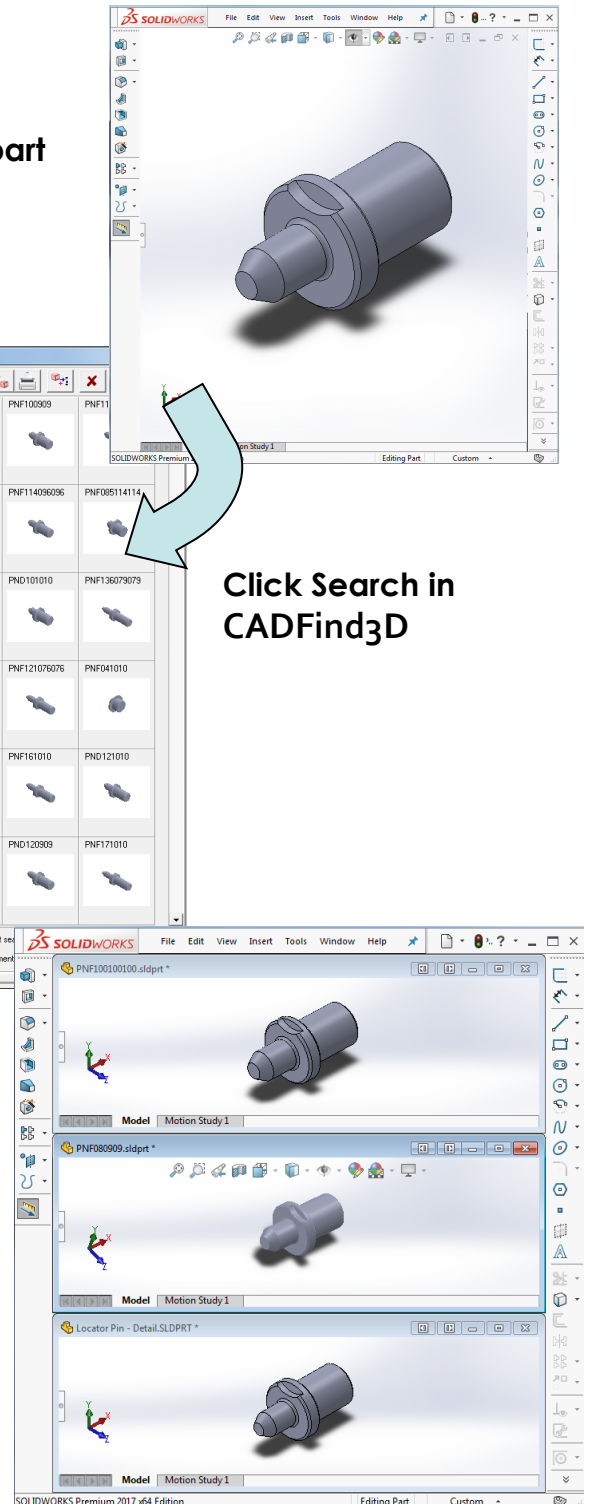

**Load/create a part
in SOLIDWORKS**

**Click Search in
CADFind3D**

**CADFind3D loads
matching parts into
SOLIDWORKS for
review & re-use**
