

## FASTEST WAY TO GET FLAT PATTERN

**FROM NOW ON,  
All sheet metals in assemblies, will be exported to  
flatten state as a DXF / DWG format automatically.**

**SOLIDGUN hunts all sheet designs including multi-bodies.  
It doesn't allow the design errors and gives result by controlling  
to manufacturing compliance. This way, gives the exact results you  
need and it decreases the supply chain cost and manufacturing time.**

- Managing All Entities to Export
- Control & Report Design Errors
- Seperate Multi-Body Sheet Metals
- Configuration Selection
- Adding Multiple Files in One Process
- Automatic Dimensioning
- Automatic Marking and Annotating
- Advanced Sheet Metal Report
- Fully Customizable Report Template
- Merging All Sheets in One DXF/DWG
- Fixed Face Selection Smart Add-In Tool
